This stance, which we share, is in line with the services those levels of government provide to properly integrate immigrants from regional and local grassroots institutions that are close to the citizens and their involvement in that process. By basing taxation on objective criteria – CO 2 emissions and energy content – it would ensure that taxation is brought more closely in line with the EU's energy and climate change objectives, including the CO 2 from cars strategy, and that it gives price signals that complement rather than contradict .

To accompany the Caribbean rum sector in enhancing competitiveness to maintain

Heeft de hoge vertegenwoordiger voor het buitenlands beleid de regering van Zuid-Afrika hierover al aangesproken, en aangedrongen op maatregelen die de veiligheid bevorderen? In the light of the above, can the Commission say whether there has been any assessment of the impact of these measures on the high-precision industry in Europe?

Could the Commission outline fully what conditions need to be met in order to encourage the Member States to implement such measures? I am sure that the Member States are invited to implement occupational policies that contribute to creating favourable conditions for the creation of jobs.
