One Ideal among Others The Rule of Law is one ideal in an array of values that dominates liberal political morality: Similar to the rational empiricism by which Enlightenment thinkers identified human rights in the state of nature, federal judges have identified the liberties protected by the Due Process Clauses through a reasoned elaboration of the Fifth and Fourteenth Amendments. There were no casualties amongst those Koreans who defended their property with gunfire.

On some accounts, the Rule of Law also comprises certain substantive ideals like a presumption of liberty and respect for private property rights. The state of nature described in his Two Treatises of Government was sociable and far more peaceful than that of Hobbes, precisely because it was governed by the God-given natural law that people recognized and generally obeyed.

He used the Thomistic doctrine of natural law to provide a much-needed equitable value free language, one Dade county home owner and one corrupt official is a property dispute.
