Strengthening Forensic Science in the United States gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. There are chapters that are over 50 pages long.

Four experts explain why forensic analysis of crime scenes is not as reliable. The situation appears to be very different in civil cases. Challenges Facing the Forensic Science Community For decades, the forensic science disciplines have produced valuable evidence that has contributed to the successful prosecution and conviction of criminals as well as to the exoneration of innocent people.
